designed by Radu Abraham

Pine wood, made in a limited edition of 8 pieces

Dimensions: 190x60x40H cm

For this particular piece we have a waiting time of 1 week.

Allpine Daybed is the result of a collaboration between Epretext Gallery and designer Radu Abraham. This daybed is made entirely out of pine wood in a specific visual language, with straight edge geometry and blocky volumes. Another contrast, both visual and in matter of perception, is given by the massive aspect, in association with the mobility given by the 6 heavy duty, red wheels. The daybed is made entirely out of pine wood, having a brutalist aesthetic, with blocky elements and large volumes combined between each other. Despite its large dimension, the daybed is made on wheels, making it highly mobile and very easy to move around.

Gruni and Lun Atelier

The fluidity and the tensions of the lines in Ana's drawings serve to sublimate the appetites usually restricted in social life, and the impact of these drawings develops a polyvalent and magical femininity. The artist captures the emotion under her vital pulses which emerge through the lines and color washes of the drawing.

Imperfections and irregularity are the most highly regarded form of beauty at KABINET. The designer duo are mesmerised by the almost-deformed-looking grains of elm burl – commonly found as a rounded outgrowth on a tree with small knots from dormant buds – and have accentuated this beauty on a lustrously curved *separè*; because what frames the space frames the mind. The structure features four curved panels connected by brass hinges in a wavy silhouette. Made out of laminated wood. Customers can choose the number of the curved sections or different veneers.
